*                                         *
*             Do you want to:             *
*  1. Play One-Player Hangman             *
*     (The computer chooses a             *
*     random word related to C++)         *
*  2. Play Two-Player Hangman             *
*     (One player chooses the word,       *
*     the other tries to guess the word)  *
*  Q. Quit                                *
*                                         *
